

## Keros Therapeutics Reports Recent Business Highlights and Third Quarter 2021 Financial Results

November 4, 2021 1:03 PM EDT

LEXINGTON, Mass., Nov. 04, 2021 (GLOBE NEWSWIRE) – Keros Therapeutics, Inc. (“Keros” or the “Company”) (Nasdaq: KROS), a clinical-stage biopharmaceutical company focused on the discovery, development and commercialization of novel treatments for patients suffering from hematological and musculoskeletal disorders with high unmet medical need, today provided a business update and reported financial results for the quarter ended September 30, 2021.

“As we enter the last quarter of the year, we are approaching the conclusion of Part 1 of our Phase 2 clinical trial of KER-050 in patients with myelodysplastic syndromes (“MDS”). In preparation for Part 2 of this trial, we are excited to bring on additional clinical sites to increase patient recruitment, and look forward to providing a clinical data update at the 63rd American Society of Hematology (“ASH”) Annual Meeting and Exposition held December 11 through 14,” said Jasbir S. Seehra, Ph.D., President and Chief Executive Officer. “As we look to the remainder of 2021 and into 2022, I am very excited by the potential of the company as we continue to advance and expand our pipeline across a wide range of serious hematological and musculoskeletal disorders.”

### Recent Corporate Highlights:

- **Entrance into lease for new headquarters:** In September 2021, the Company announced that it entered into an indenture of lease with Revolution Labs Owner, LLC, pursuant to which the Company will lease approximately 35,662 square feet of office and laboratory space located at 1050 Waltham Street, Lexington, Massachusetts for its new principal executive office. The Company expects to move into its new headquarters in the fourth quarter of 2022.

### Recent Program Highlights:

- **KER-050 for the treatment of ineffective hematopoiesis to address cytopenias**
  - Keros will present an abstract announcing additional preliminary results from Keros’ Phase 2 clinical trial of KER-050 in patients with very low-, low-, or intermediate-risk MDS at the 63rd ASH Annual Meeting and Exposition, to be held both in person and virtually from December 11 through 14, 2021.
  - Keros has initiated dosing for Cohort 4 of its Phase 2 clinical trial of KER-050 at 3.75 mg/kg of KER-050, to be administered once every four weeks for 12 weeks, following Safety Review Committee recommendation.
- **KER-012 for the treatment of disorders associated with bone loss and for the treatment of pulmonary arterial hypertension**
  - In September 2021, the Company commenced a randomized, double-blind, placebo-controlled, two-part Phase 1 clinical trial to evaluate single and multiple ascending doses of KER-012 in healthy volunteers. Keros expects to report initial data from Part 1 of this trial in the first half of 2022 and additional data from Part 2 of this trial in the second half of 2022.

### Third Quarter 2021 Financial Results

Keros reported a net loss of \$20.3 million in the third quarter of 2021 as compared to a net loss of \$12.0 million in the third quarter of 2020. The increase in net loss for the third quarter was largely due to increased research and development efforts as well as additional infrastructure expenses to support the achievement of Keros’ corporate goals.

Research and development expenses were \$14.8 million for the third quarter of 2021 as compared to \$8.4 million for the same period in 2020. The increase of \$6.4 million was primarily due to additional research and development efforts, manufacturing activities, and personnel expenses to support the advancement of Keros’ pipeline.

General and administrative expenses were \$5.4 million for the third quarter of 2021 as compared to \$3.6 million for the same period in 2020. The increase of \$1.8 million was primarily due to increase in personnel expenses and other external expenses to support Keros’ organizational growth.

Keros' cash and cash equivalents as of September 30, 2021 was \$221.3 million compared to \$265.9 million as of December 31, 2020. Keros expects that the cash and cash equivalents it had on hand at September 30, 2021 will fund its operating expenses and capital expenditure requirements into the fourth quarter of 2023.

#### About Keros Therapeutics, Inc.

Keros is a clinical-stage biopharmaceutical company focused on the discovery, development and commercialization of novel treatments for patients suffering from hematologic and musculoskeletal disorders with high unmet medical need. Keros is a leader in understanding the role of the Transforming Growth Factor-Beta family of proteins, which are master regulators of red blood cell and platelet production as well as of the growth, repair and maintenance of muscle and bone. Keros' lead protein therapeutic product candidate, KER-050, is being developed for the treatment of low blood cell counts, or cytopenias, including anemia and thrombocytopenia, in patients with myelodysplastic syndromes and in patients with myelofibrosis. Keros' lead small molecule product candidate, KER-047, is being developed for the treatment of anemia resulting from iron imbalance, as well as for the treatment of fibrodysplasia ossificans progressiva. Keros' third product candidate, KER-012, is being developed for the treatment of disorders associated with bone loss, such as osteoporosis and osteogenesis imperfecta, and for the treatment of pulmonary arterial hypertension.

#### Cautionary Note Regarding Forward-Looking Statements

Statements contained in this press release regarding matters that are not historical facts are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. Words such as "anticipates," "believes," "expects," "intends," "plans," "potential," "projects," "would" and "future" or similar expressions are intended to identify forward-looking statements. Examples of these forward-looking statements include statements concerning: Keros' expectations regarding its growth, strategy, progress and timing of its preclinical studies and clinical trials for KER-050, KER-047 and KER-012; the potential impact of COVID-19 on Keros' ongoing and planned preclinical studies, clinical trials, business and operations; and Keros' expected cash runway. Because such statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by such forward-looking statements. These risks and uncertainties include, among others: Keros' limited operating history and historical losses; Keros' ability to raise additional funding to complete the development and any commercialization of its product candidates; Keros' dependence on the success of its lead product candidates, KER-050 and KER-047; that Keros may be delayed in initiating, enrolling or completing any clinical trials; competition from third parties that are developing products for similar uses; Keros' ability to obtain, maintain and protect its intellectual property; Keros' dependence on third parties in connection with manufacturing, clinical trials and preclinical studies; and risks relating to the impact on Keros' business of the COVID-19 pandemic or similar public health crises.

These and other risks are described more fully in Keros' filings with the Securities and Exchange Commission ("SEC"), including the "Risk Factors" section of the Company's Quarterly Report on Form 10-Q, filed with the SEC on August 5, 2021, and its other documents subsequently filed with or furnished to the SEC. All forward-looking statements contained in this press release speak only as of the date on which they were made. Except to the extent required by law, Keros undertakes no obligation to update such statements to reflect events that occur or circumstances that exist after the date on which they were made.
