to support our operations as a publicly traded company.

Research and development expenses were \$10.0 million for the second quarter of 2021 as compared to \$7.3 million for the same period in 2020. The increase of \$2.7 million was primarily due to additional research and development efforts, manufacturing activities, and personnel expenses to support the advancement of our pipeline.

General and administrative expenses were \$5.7 million for the second quarter of 2021 as compared to \$3.7 million for the same period in 2020. The increase of \$2.0 million was primarily due to increase in personnel expenses and other external expenses to support Keros' organizational growth.
